Introduction

The Advance Mega Menu app provides the feature of Mega Menu. It implies that we can define a simple menu as a mega menu in which we can show multiple categories in a single menu. For the website's frontend, we have made a mega menu which obtains the category details from back-end and displays it as described in the mega menu configurations. (i.e., 2 columns menu, 3 columns menu or, 4 columns menu, background color or image, main menu icon, product slider, slider position and footer for mega menu).

Advance Mega Menu app also allows admin to opt from Category Mega Menu, Pages Mega Menu and List Category Mega Menu.

Benefits of Advance Mega Menu

- Easy customization of Mega Menu.
- Easy & effective management of Product Display.
- Admin can rename the category list as per the requirement.
- Admin can select number of columns for menu drop down.
- Admin can set images for highly recommended products and relevant categories.
- Admin can set icons, background color, etc. for menus.
- Admin can create multiple categories and their sub categories as well.
- Get different types of Mega Menus including, Category Mega Menu, List Category Mega Menu and Pages Mega Menu.

Prerequisites

Following points must be followed before starting the plug-in installation:

- One should login as an Admin in Odoo.
- Check that your Odoo Instance is compatible with Advance Mega Menu.
- An e-commerce module should be present in your instance to use this app.

Note: Website Mega Menu v10's and v11's all new features are not available in v8, v9.

Installation

Installation Steps

Step 1: Download and extract the Zip File.

Step 2: Check your Odoo add-ons path.

- It should be same as defined in Odoo Config file.
- Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
- Open Config file:
 - Give the command: `sudo/etc/odoo.conf`
 - Config file content: `addons_path = /opt/odoo/addons`

Step 3: Open Terminal and go to the download location

- For e.g. if the download location path is: /home/odoo/Downloads then the command to be written in the terminal would be: `cd/home/odoo/Downloads`

Step 4: Copy download modules to add-ons path

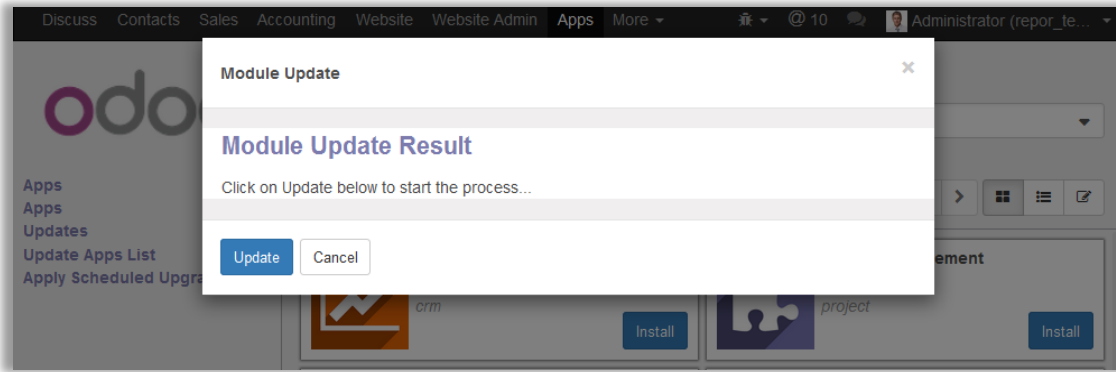

- Give the commands mentioned below to perform copy operation:
 - `$cd /home/odoo/Downloads/biztech_website_megamenu`
 - `$cd v8`
 - `$sudo cp biztech_website_megamenu /opt/odoo/addons`

Step 5: Restart the Odoo server

Step 6: Login with the admin credentials in your Odoo instance.

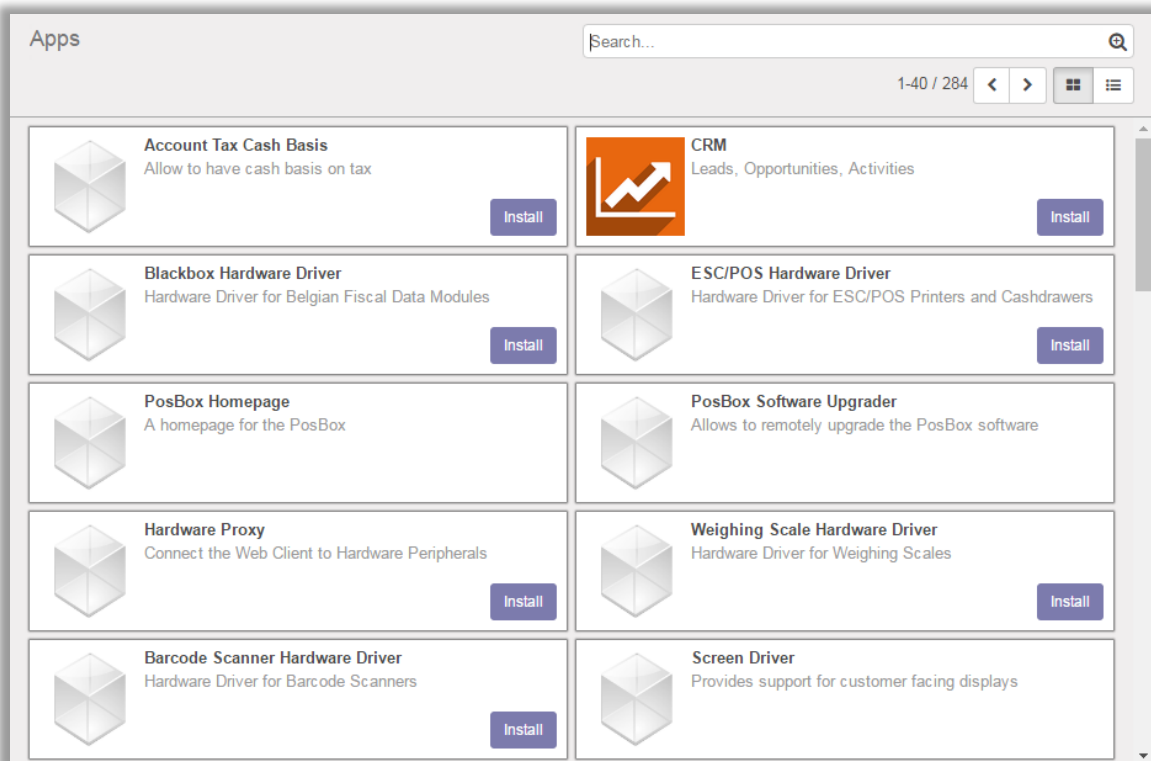

Step 7: Go to Settings/Update Module List.

- Click on 'Update' button.

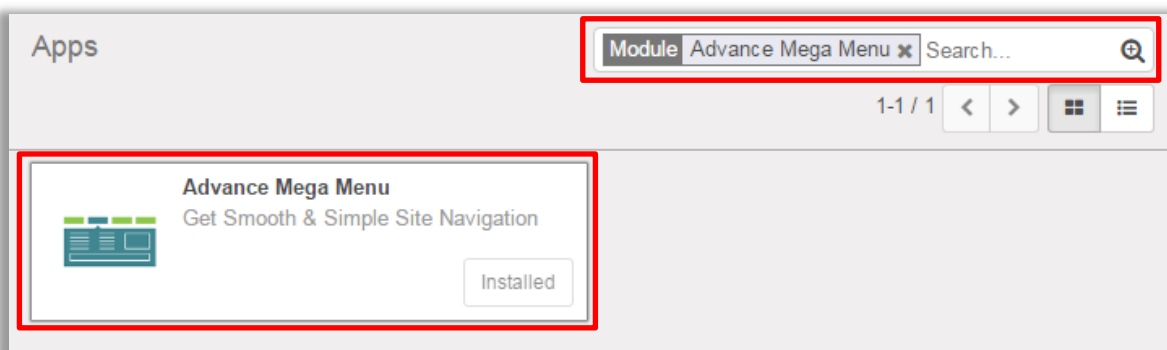

Step 8: Go to Settings/Local Modules

- Remove search filter

- Enter module name in the search box provided in the top right corner of the page. For e.g. Here write Advance Mega Menu. Click on 'Install' button.

App Configuration

Creating Mega Menu

- Go to **Website Admin -> Settings -> Configuration -> Pages**. Choose the page and navigate to Edit view of that particular page.
- Now navigate to **'Related Menu Items'** section and click on **'Add an item'** button to create a new menu.
- There you will have options to add Web Site, Menu Name, URL for Menu, Option to open menu in new window, Parent Menu & If the new menu is mega menu or not.

The screenshot shows a 'Create Related Menus' dialog box with the following fields and options:

- Website:** A dropdown menu showing 'Website localhost' with an external link icon.
- Menu:** A dropdown menu showing 'Appliances'.
- Url:** A text input field containing '/appliances'.
- New Window:** A checkbox that is currently unchecked.
- Parent Menu:** A dropdown menu showing 'Home' with an external link icon.
- Is megamenu...?:** A checkbox that is currently unchecked.

At the bottom of the dialog, there are three buttons: 'Save & Close', 'Save & New', and 'Discard'.

Mega Menu Configuration

- Select **Is Mega Menu...**? Option to create mega menu & set configurations as required.
 - **Mega Menu Type:** Choose the number of columns needed in Mega Menu.

- **Category Mega Menu:** To display the Mega Menu as per the categories.

- **List Category Mega Menu:** To display the Mega Menu in the list view of categories.

- **Pages Mega Menu:** To display page categories in the mega menu.

- **Mega Menu Background:** If you want background in Mega Menu, you can set it from here by checking the '**Want to set Mega Menu background**' Checkbox. On checking it, '**Mega Menu Background Selection**' option will appear. It'll have the following options:
 - **Background Image:** To set a background image in mega menu upload an image from here.
 - **Background Color:** To set a background color for mega menu enter the Hash code of particular color.

A screenshot of the 'Open: Related Menus' configuration window. The window has a title bar with a close button. It contains several settings:

- 'Is megamenu...?' with a checked checkbox.
- 'Megamenu View Type' with a dropdown menu set to 'Category Megamenu'.
- 'Configuration' section with a 'Megamenu type' dropdown set to '3 Columns'.
- 'Want to set megamenu background' with a checked checkbox.
- 'Megamenu background selection' with two radio buttons: 'Background image' (unselected) and 'Background color' (selected).
- 'Background color for megamenu' with a text input field containing '#ccc'.
- 'Want to display menu icon' with an unchecked checkbox.
- 'Want to customize menu colors' with an unchecked checkbox.
- 'Display menu footer' with an unchecked checkbox.
- 'Special features' with a dropdown menu.
- 'Display category image' with an unchecked checkbox.

At the bottom, there are three buttons: 'Save & Close', 'Save & New', and 'Discard'. A red rectangle highlights the 'Megamenu background selection' and 'Background color for megamenu' options.

- **Special Features:** Advance Mega Menu contains following special features:
 - **Category Slider:** To display sliders for category in Mega Menu.
 - **Static Image:** To display a static image in the Mega Menu.

The screenshot shows a configuration window titled "Open: Related Menus" with a close button (X) in the top right corner. The window is divided into two main sections: "Configuration" on the left and a settings area on the right. The "Configuration" section lists several options with checkboxes: "Megamenu type" (set to "3 Columns"), "Want to set megamenu background", "Want to display menu icon", "Want to customize menu colors", "Display menu footer", "Special features" (highlighted with a red box), "Slider label", "Category slider position", and "Display category image". The "Special features" dropdown menu is open, showing two options: "Category slider" (highlighted in blue) and "Static image". At the bottom of the window, there are three buttons: "Save & Close", "Save & New", and "Discard".

- **Category Slider:** To display category slider, select '**Category Slider**' option and set '**Slider Label**' & '**Category Slider Position**'.

- **Menu Icon & Colors:**

- To add icon to menu, select option '**Want to display menu icon**' and upload the icon for menu.
- To change font Color for Categories & Subcategories, enable '**Want to customize menu colors**' option and add hash codes for Main category color & Sub category color.

The screenshot shows a configuration window titled "Open: Related Menus" with a close button (X) in the top right corner. The window contains a list of settings on the left and their corresponding controls on the right. A red rectangular box highlights the following settings:

- Want to display menu icon**: A checkbox that is checked.
- Menu Icon**: A placeholder icon for the menu.
- Want to customize menu colors**: A checkbox that is checked.
- Main category color**: A text input field with a light blue background.
- Sub category color**: A text input field with a light blue background.

Below the highlighted section, the following settings are visible:

- Display menu footer**: A checkbox that is unchecked.
- Special features**: A dropdown menu showing "Category slider".
- Slider label**: A text input field showing "Latest".
- Category slider position**: A dropdown menu showing "Left".
- Display category**: A text input field.

At the bottom of the window, there are two buttons: "Save" and "Discard".

- **Menu Footer**

- To display menu footer, enable '**Display menu footer**' option and enter the text for footer in '**Footer content**' text area.

The screenshot shows the 'Open: Related Menus' configuration window. The 'Display menu footer' checkbox is checked. The 'Footer content' text area contains the text 'AppJetty Advance Mega Menu'. The 'Special features' dropdown is set to 'Category slider' and the 'Slider label' is 'Latest'. The 'Save' button is highlighted.

- **Category Image**
 - To display images as per the categories, enable '**Display category image**' option and choose the image display position. There will be mainly two display positions
 - **Top**
 - **Bottom**
